

Lincoln Special Needs Kids Fishing Clinic

The Lincoln Special Needs clinic was held August 24, 2019 at Holmes Lake. Everyone signed in at 11:30am and lunch was served. At noon we divided up and went to our station. Every 10 minutes we rotated until everyone had completed all the stations. We taught them about casting, knot tying, live bait and water safety. Then we handed out the rod/reels, handouts and bait and everyone went fishing. It was a very nice day.

Thanks to Vicki Depenbusch of Autism for doing the registration, Farmland for donating the hot dogs and all the volunteers who came to help. These Clinics aren't possible without our volunteers.

Thanks to the following volunteers:

Carroll Crist – Bait
Herb Angell – Casting
Jeanette Milius – Water Safety
Betty Clayton – knot tying
Mary Young – cooking
Ray Clayton – Time Keeper

Hope everyone takes their rod/reels and go fishing.

Have a safe summer.

Betty Clayton
